Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The discussion first focused on the Kahn reference and SPE Hayes agreed that the Kahn reference failed to disclose the "unique digital identifier unique to said bodily worn storage device and stored in said bodily worn storage device" as claimed. SPE Hayes indicated that the Yeager reference however, seems to disclose the unique digital identifier on Pages 7 and 12. SPE Hayes also discussed other issues that will be raised in the next office action such as a new matter issue with the specification as well as certain claims. Language that was added to the specification and claims during prosecution related to the Internet, Intranet and web sites does not appear to have sufficient support in the original application as filed. Applicant agreed to respond to the Final rejection mailed 4/19/2007 and SPE Hayes agreed to consider applicant's arguments. Also, as requested by Mr. Reeves, this application will be transferred to another examiner within art unit 3626 .
